Rated frequency:	50/60 Hz
Filtration stages:	6
CADR:	360m ³ /h
Ozon:	10ppb
Noise (max.):	25-50db
Rated power:	20W
Weight netto:	14,5 kg
Dimension:	36,5 * 24 * 60,5 CM
Coverage (max.):	40 m ²
Certificates:	

FILTER TECHNOLOGY

In addition to traditional ionic technology, our process has proven to be the most effective air purification solution on the market. The AeroTronic from our company offers a disposal-free air purifier variant. Thanks to the unique ion field, 99.99% of viruses and bio-aerosols are effectively destroyed and removed.
