Rated frequency:	50/60 Hz
Filtration stages:	7
CADR:	460m ³ /h
Ozon:	10ppb
Noise (max.):	25-50db
Rated power:	35W
Weight netto:	21,5 kg
Dimension:	36,5 * 24 * 78,5 CM
Coverage (max.):	60 m ²
Certificates:	

FILTER TECHNOLOGY

In addition to traditional ionic technology, our process has proven to be the most effective air purification solution on the market. The Aerotronic from our company offers a disposal-free air purifier variant. Thanks to the unique ion field, 99.99% of viruses and bio-aerosols are effectively destroyed and removed.
